Thank you for submitting a proposal to be considered at GSX 2020!

A new format for a new year! The presentation proposal submission format has changed a bit from past years. In addition to using a new system, you will notice a change in the information you will be asked to submit including background information, topic/track(s), and number of speakers. These additional requirements have been made in an effort to ensure the highest quality content.   Please pay special attention as you complete your proposal, as the process may take a little longer this year.

Here are a few tips to help you navigate the functional changes to the system:
- To save your work to come back to continue, please send yourself an email and pick up where you left off. See box on right had side of the page for this option.
- Once you hit the **Submit Application** button, your proposal has been submitted and you **WILL NOT** be able to make changes.
- If you are submitting multiple proposals, you will have to re-enter all your data.

For assistance at any time during the process, send an email to csmith@mapyourshow.com or presentations@asisonline.org. Thank you for submitting and we look forward to reviewing your proposal.

Proposal Scoring Rubric

New in 2020, we have expanded the scoring rubric that will be used to review all proposals. This rubric will have a total maximum score of 101 total points. Your proposal will be scored on the following:

Title	Title describes the ideas presented in the abstract, arouses interest
Abstract	Purpose stated clearly and concisely. Concept presented in sufficient details to understand. There is specific information described that the reader can determine whether the content might be useful to adopt. Written professionally: tone, grammar, spelling
Learning outcomes	Intended outcomes and audience participation are stated in explicit terms and can be achieved in the proposed format. What the audience can expect to learn is clear. Clear learner take-aways are stated.
Audience engagement and Interaction	Level of meaningful interactivity is high. Allows for adequate participant participation. Engages learners in creative ways
Highly Relevant	Timely, reflects current issues, etc. Relevant to mid-level security professionals and above
Benchmark or Best Practice	Focuses on best practices and/or provides security benchmarks
Innovative	Reflects a future focus mindset, new practice, cutting edge solutions, has future impact on the profession
Adaptable	Topic is adaptable to a variety of security settings

STEP 2: PROPOSAL

* Session Title
Limit 15 words. *Please enter in title case, capitalizing only the first letter in each word. Your title should capture who your session is for and the topic that will be covered. DO NOT place quotes around your title.*

* Abstract
Limit to 115 words. *Describe the theme and purpose of this presentation. Your description should build on your title, focus on takeaways, and be as persuasive and concise as possible. This abstract will be used in the final program to attract attendees. Abstracts may be edited for clarity. If selected, the description will be modified and used in the marketing brochure and website.*
DO NOT include the titles of the presentations.
DO NOT list the presenters or other participants here

*Intellectual Property
This proposal is my original work. I understand that I may use properly referenced materials (quotations, graphs, photographs, artwork, passages, etc.) from other published and unpublished sources in my proposal and in my presentation provided their inclusion does not infringe on copyrights or trademarks.

* Learning Objective #1
Limit to 50 words each, with spaces. What will the attendee learn from this program? Please list 3 learning objectives Suggested format: At the end of this session participants will be able to understand/comprehend/apply/demonstrate, etc. Your learning objectives/takeaways should put the emphasis on participants acquiring skills, rather than simply receiving knowledge. Please begin each objective with a capital letter and end with a period.

* Learning Objective #2

* Learning Objective #3

* = mandatory field

*Area of Focus

Please indicate the area of focus of your proposal. Only TWO are allowed.

- o Active assailant
- o Archicture, engineering and design
- o Augmented & virtual reality, artificial intelligence
